EXISTING BRANDING

Logo is seen as mass-market, cheerful and young (because of its dense composition, thickness and curves, also the optic effect of the O).

It lacks of refinement and elegance to fit the new positioning of Own which can be summed up as : luxury, sophistication, exclusivity.

OWN BRANDING

This brand identity is the embodiment of timeless elegance and cultural fusion.

The aesthetic roots itself in the delicate curves of European design, while drawing inspiration from the intricate ornamentation of Balinese craftsmanship.

The visual language balances the simple and the sophisticated, using refined lines and elegant shapes.
